Gravely revolutionized the 4-wheel garden tractor field with its rear-engine Gravely-424. Now that fabulous tractor has been redesigned for the commercial user as well. This new tractor has more muscle — 12HP, *automotive type starter and alternator*, a *self-cleaning air cooling system* and many more important modifications. It's the Gravely-430.

Wherever there's a grounds maintenance or landscape job to be done . . . your Gravely dealer can

show you the right compact tractor to do the job.
